JOINT PHOTOGRAPHIC INTELLIGENCE BRIEF
ARMY-CIA

(Published and Disseminated by CIA/PIC)

SUBJECT	: Missile Production Facility	NO	: PIC/JB-42/60
LOCATION	: Airframe Plant 292, Saratov, USSR	DATE	: 29 March 1960
WAC	: 235	LAT	: 51°30'N
		LONG	: 45°57'E

25X1

REFERENCE:

PIC. JB-4-60, Possible Missile Production at Saratov Airframe Plant
292, 18 Jan 60

25X1

REMARKS:

A Soviet surfact-to-surface and surface-to-air missile production facility has been identified at Saratov Airframe Plant 292. At least 110 short range surface-to-surface tactical type missiles (see accompanying line drawing) and several surface-to-air missile frame components are visible in the plant area. A detailed report will follow at a later date.

TOP SECRET

PIC/JB-42/60

SHORT RANGE TACTICAL MISSILE. Dimensions are approximate. This missile appears identical to the ballistic rocket seen in the 1957 Moscow parade.
